

**TempSafe® PalletShield™** is the first pre-qualified, curbside-recyclable\* pallet shipper, offering a sustainable bulk shipping solution. Easily recyclable, it can reduce carbon footprints and eliminate disposal costs associated with traditional polyurethane and polystyrene pallet shippers. The patent-pending design features proprietary rotary clips that secure the panels, preventing edge loss and ensuring consistent thermal performance, while also providing a tamper-proof reinforcement with nylon pallet strapping.

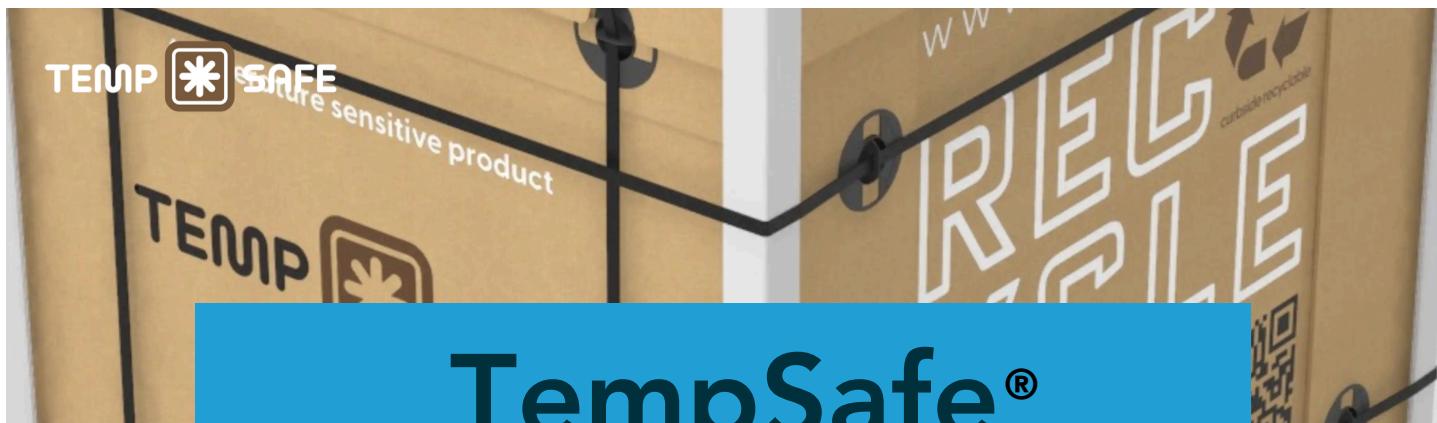

### Features Include:

- Made from curbside recyclable\* components
- Cost-effective single-use pallet shipper
- 558-liter payload capacity for refrigerated and CRT shipments
- 596-liter payload capacity for frozen shipments
  - Holds over 300 lbs of dry ice
- 5+ days of 2-8°C thermal performance
- 5+ days of 2-25°C thermal performance
- 5+ days -20°C thermal performance
- Tare Weight: 135 lbs.
